Tel ☎ - 01706 399 322

Email ✉ - parts@airconcoltd.com

Airconco Ltd was formed in 1997 and is now one of the leading specialists of climate control systems in the PSV industry, and in recent years has specialised in the move to fully electric heat pump systems now found on ZE buses and coaches.

This is now the 16th update of this catalogue after it was first launched in 2010 and we are delighted that it has been a success in making parts identification much simpler, this year we have continued with our successful new layout which includes much clearer images and section indicators to aid navigation.

As always we endeavour to be as competitive as ever with our pricing and more importantly parts availability.

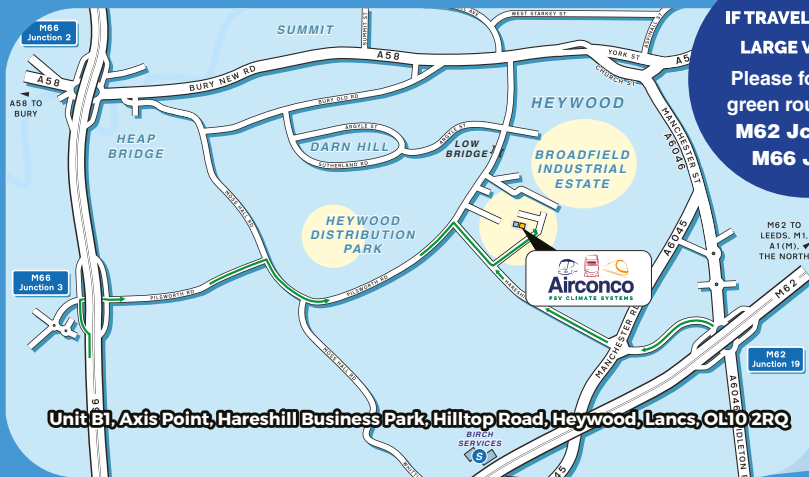

We have been dealing with all major bus and coach HVAC system suppliers for many years, our official partnerships include Denso, Diavia, Eberspächer Süttrak, Heavac, Hispacold, Konvekta, Mobile Climate Control (UWE), NTCAC, Sanz Clima, Songz, SPAL, Spheros, Valeo and Webasto. Official supply channels also exist with Thermo King.

With 1,800 individual product lines in stock and access to over 24,000 part references, we have the one stop shop solution for all your bus and coach climate control needs.

Last year marked our 28th year in business. Thank You to all of our customers and suppliers who have supported us during this time.

OUR LOCATION & DEALER NETWORK

IF TRAVELLING IN A LARGE VEHICLE
Please follow the green routes from **M62 Jcn 19** or **M66 Jcn 3**.

Based in Heywood, North Manchester since 2013, Our Premises are fully equipped with a 3 Bay Workshop and Extensively Stocked Parts Department.

We can also provide servicing through our selected dealers and partners across the country, meaning that whatever the problem We can help!

 Sub Dealer Locations

TERMS & CONDITIONS

Placing Orders & Carriage Charge

All orders are processed over a two working day period, order cut off time is 3pm to ensure stock items are dispatched same day.

Certain parts we are unable to stock, you will be given an estimated delivery date before you purchase.

Free Delivery on orders over £250 (before VAT), up to 20Kg to UK Mainland (*exclusions apply-Subject to Courier Company Conditions) & £10 per order under £250 (before VAT) up to 20Kg.

Unfortunately courier firms now use volumetric calculations as well as weight, so 20kg limit also applies to volumetric calculation when entered into the Courier Company system.

Timed deliveries are available upon request.

Deliveries are made in accordance with our Courier Company and claims for loss will not be accepted by Airconco Ltd for failed / late / delayed or misrouted deliveries.

Warranty

Before returning any parts you will need to obtain a returns form from Airconco Ltd, complete in full and return with faulty item.

All products supplied by Airconco Ltd are guaranteed against faulty manufacture for 6 months. This does not cover general wear and tear, neglect or misuse. We reserve the right to supply a replacement part or repair, rather than credit.

Identification labels must not be removed, removal of labels will invalidate warranty.

All warranty parts will be sent back to OEM's and is subject to approval from the factory of manufacture.

Compressors:

Warranty claims for compressors will only be considered if the unit concerned can be proved to have been correctly fitted, this means that any foreign matter is removed from the air conditioning system (flushed), the correct quantity and oil type is used in the compressor, system oil quantity is checked to be correct after 1 day of operation, filter drier(s) must be replaced, as well as the expansion valve(s) if necessary, and the system is evacuated properly to remove moisture and the correct amount of refrigerant is charged to the system after install, at each stage OEM procedures must be followed. Correct checking of belt tensions and alignment must also be observed.

Once operational the system needs a full check by a qualified engineer for evidence as to why the original unit failed.

Clutches:

The majority of instances of clutch failure happen because there is a major fault with the air conditioning system operation.

After installation of a new clutch, the air conditioning system must be carefully checked by a qualified engineer that the root cause is rectified, as claims for replacement will be refused due to system faults.

Returns

Airconco Ltd returns process has been designed to give an optimum service to all our customers.

A claim should be made and paper work stating the date of purchase and invoice details should be emailed back to our Parts Department on parts@airconcoltd.com for authorisation prior to the goods being returned.

Where goods have been ordered but are not required, we at Airconco Ltd reserve the right to refuse the request for the return.

All parts we agree to be returned, that have been supplied correctly will be subject to a handling charge of 20% and all shipping costs incurred where applicable.

Please check all delivery contents before signing, we are unable to send replacements if damage was not reported to courier at point of delivery.

All items returned must be in original packaging and must be packed to avoid return damage with carriers, failure to do so will result in no credit being raised.

Any returns received after 30 days will not be credited.

Special order items are non-returnable, you will be notified if an item is special order at time of placing order.

Payment

All prices quoted are subject to carriage charges and VAT at current rate. Prices are subject to change without prior notice.

Credit accounts available upon application (see rear of catalogue for credit request form).

All accounts are strictly 30 days, we have the right to charge late payment statutory interest of 8% over BOE base rate for any amounts owing after this period. If invoices remain unpaid beyond the agreed date we retain the right to pass the debt to a recovery agency, and you will be responsible for any interest or charges applied.

Credit card facilities are available to anyone without an agreed credit account. Delayed payments to Airconco Ltd could invalidate product warranties. All goods remain the property of Airconco Ltd until paid in full.
